What is SILENT SUBTITLES?

SILENT SUBTITLES is a user-friendly Windows application that generates Portuguese and English subtitles automatically for your audio and video files.
It is ideal for content creators, teachers, students, and anyone who needs fast, reliable subtitles in European Portuguese and English, whether for videos, lectures, interviews, or multimedia content.

No technical knowledge is required — everything is done through an intuitive graphical interface.

Key Features

- **Automatic subtitle generation** for audio and video files.
- **Supports a wide range of formats:** MP3, WAV, MP4, AVI, M4A, and more.
- **Exports standard subtitle files** (SRT or TXT) ready for YouTube, VLC, or video editors.
- **Accurate European Portuguese transcription and segmentation.**
- **Real-time progress bar and activity log.**
- **No ads, no spyware, no unnecessary extras.**

System Requirements

- **Operating System:** Windows 10 or newer (64-bit recommended)
- **Processor:** Modern multi-core CPU recommended for faster processing
- **Memory (RAM):** 4GB minimum (8GB recommended)
- **Disk Space:** Sufficient for your files and output subtitles
- **No additional installation or dependencies required**
- **No internet required** (unless you select online/Cloud mode, if available)

Quick Start Guide

1. Preparation

- Place your audio or video file anywhere on your computer.
- No need to rename or move originals; the program will not modify them.

2. Launch the Application

- Double-click `SILENT SUBTILES` to open the main window.
- You'll see:
    - **Title and Logo** at the top
    - **File upload button** or drag-and-drop area
    - **Progress bar** and live log window

3. Generate Subtitles

- **Select your audio or video file** using the button, or drag it into the window.
- Click "Generate Subtitles" (or equivalent).
- Wait as the progress bar advances; the log window shows real-time status.

- When finished, your subtitle file (`.srt`) is automatically saved to your Desktop or a chosen folder.
- A completion message appears; you can open the containing folder directly from the app.

Output

- Subtitles are saved in standard `.srt` (SubRip) format, compatible with most media players and editors.
- Each subtitle includes accurate timing and text in **English and uropean Portuguese**.
- The original filename is referenced for easy matching.

Security & Privacy

- All processing is local; no audio/video leaves your computer.
- No advertising, data collection, or hidden processes.
- Your files and subtitles are 100% private.

Troubleshooting

- **Program won't start:**
  Ensure you are using Windows 10 or newer (64-bit preferred). Try running as Administrator.
- **"File not supported" error:**
  Make sure your file is a standard format (MP3, WAV, MP4, etc.) and not corrupted.
- **No subtitles generated:**
  Check the log window for errors, and ensure there is clear, audible speech in the audio/video.
- **Subtitle timing is off:**
  For best results, use good quality, clearly recorded audio.

Frequently Asked Questions (FAQ)

Does this work with other languages?
No — SILENT SUBTITLES is optimized for English and European Portuguese.

Do I need internet access?
No — the program works fully offline.

Can I use these subtitles in YouTube or VLC?
Yes — the `.srt` files are compatible with most platforms and editors.

Is it really free?
Yes — 100% free, with no ads or hidden costs.
